

# 3600

> A space-saving baler for medium to large amounts of recyclable waste.

This mill sized baler is ideal for medium to large cardboard or plastic waste applications. It's cost effective, frees up space on site, and has the ability to generate revenue for your business.

## Key Features

- Heavy duty and versatile.
- Large loading aperture.
- Automatic opening door for easy loading.
- Quiet operation.
- Rapid cycle times.
- Special retaining claws optimising compression of the pressing material, increasing both the loading volume and bale output.
- Conforms to EN16500.

## Benefits

- Reducing your waste disposal frequency & cost.
- Keep your premises tidy & freeing up number of bins/skips.
- Helping your business remain compliant.
- Create efficient waste streams for recycling or potential revenue.
- Improved waste management process.

## Technical Data

Press Force	50 tons
Cycle Time	42 seconds
Machine Weight	2070kg
Power Supply	32 amp, Type D, 3 Phase, Red Commando Socket

Unit 6 Alpha Industrial Park, Bevan Way, Smethwick, B66 1BZ

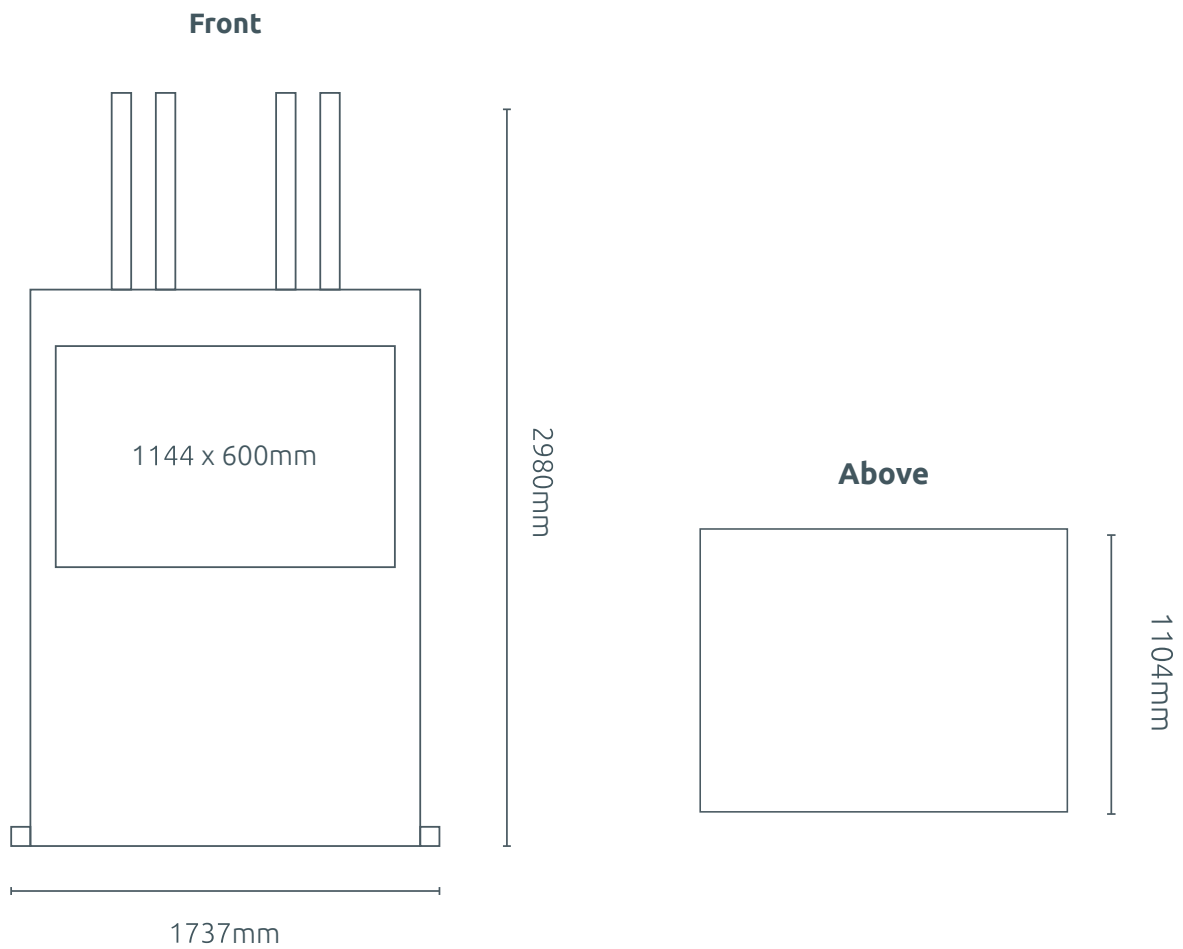

### Machine Dimensions

Width	1737mm
Depth	1104mm
Height	2980mm
Loading Height	1148mm
Loading Aperture	1144mm (W) x 600mm (H)

### Bale Data

Width	1200mm
Depth	800mm
Height	1000mm
Baled Weight Application	450kg*

\*The bale weight varies depending on type, humidity, and condition of the compressed material.
